

Kiadis and Gulf Coast Regional Blood Center announce collaboration to provide universal donor material for K-NK cell therapy programs

September 28, 2020

Collaboration marks first contractual partnership with supplier of universal donor material

Amsterdam, The Netherlands, September 28, 2020 – Kiadis Pharma N.V. ("Kiadis" or the "Company") (Euronext Amsterdam and Brussels: KDS), a clinical-stage biopharmaceutical company developing innovative NK-cell-based medicines for the treatment of life-threatening diseases and Gulf Coast Regional Blood Center (GCRBC), a primary supplier of blood components to more than 170 hospitals and health care facilities, today announce a collaboration under which GCRBC will supply universal donor starting material for the manufacture of Kiadis' off-the-shelf K-NK Natural Killer (NK) cell therapies in the United States.

Kiadis' proprietary off-the-shelf K-NK cell platform is based on NK cells from unique universal donors. This collaboration will provide Kiadis with an ongoing supply of starting material needed for clinical supply and research and development. The Company is developing multiple K-NK programs utilizing universal donor starting material.

Arthur Lahr, chief executive officer of Kiadis, commented, "Our collaboration with Gulf Coast Regional Blood Center gives us access to their broad donor network to identify universal donors using our proprietary algorithm and selection analytics. We then take the donor immune cells as source material to produce off-the-shelf K-NK cells. This collaboration further helps us ensure a continued supply of universal donor material for our K-NK cell therapy programs."

Hope Guidry-Groves, Cellular Life Solutions Director at Gulf Coast Regional Blood Center, stated, "Our mission is to partner with the community to help save and sustain lives by providing a safe supply of blood, biotherapies and related services. With our history of excellence and proven expertise, we can help drive more treatment options to patients through advanced blood therapies. By helping researchers locate willing and eligible participants for these specialized collections, we are doing our part in bringing new hope to patients."

Dutch Translation/Nederlandse vertaling

Kiadis Pharma nv ('Kiadis') is een Nederlands beursgenoteerd biotechbedrijf dat nieuwe geneesmiddelen ontwikkelt tegen ernstige ziekten. Het maakt daarbij gebruik van Natural Killer-cellen (NK-cellen), grote witte bloedlichamen die de eerste verdedigingslinie in het menselijk afweersysteem vormen tegen kankercellen en infecties. Kiadis heeft met de Amerikaanse bloedbank Gulf Coast Regional Blood Center (GCRBC) in Houston, een overeenkomst gesloten voor de levering van universeel donormateriaal voor productie van K-NK Natural Killer-cell-therapie-producten. GCRBC is een belangrijke leverancier van bloedproducten aan meer dan 170 ziekenhuizen en zorginstellingen in de regio. Met de samenwerking is Kiadis gegarandeerd voorzien van basismateriaal.

Arthur Lahr, CEO van Kiadis, zegt over de samenwerking:

"De alliantie met Gulf Coast Regional Blood Center met haar brede donornetwerk geeft ons de mogelijkheid universele donoren te identificeren met onze eigen algoritmen en selectieprocessen. Deze samenwerking zorgt voor een continue aanvoer van basismateriaal voor de productie van K-NK-cellen voor al onze celtherapieën."

Hope Guidry-Groves, Cellular Life Solutions Director bij GCRBC zegt:

"Wij willen bijdragen aan de volksgezondheid door veilige bloedvoorziening en meer behandelopties voor patiënten via geavanceerde bloedtherapieën. Door Kiadis bij te staan dragen wij bij aan een nieuw perspectief voor patiënten."
